It's a big priority for us to scale. We have a volunteer, James Hogan, running this now, so we're really trying to get it going.

Wiki page contains details on volunteer program & opportunities, can be viewed by area, skills, or urgency. We also have tear-sheets at the registration table for the more urgent projects, so you can learn about the opportunities and sign up for them while you are still excited, before the glamor of the conference fades :).

We really need help, so please take a look and sign up.
